

HOMEOPATHY IN DENTAL PRACTICE

NCIM WEBINAR SERIES IN COLLABORATION WITH
THE BRITISH HOMEOPATHIC DENTAL ASSOCIATION

We are excited to be in collaboration with the British Homeopathic Dental Association (BHDA) to bring you this interesting webinar series exploring how homeopathy can be used in dental practice and to improve oral health.

Although this is primarily aimed at members of the dental profession this series should appeal to practitioners in Integrative Health and give an insight into the importance of oral health in our general well-being.

National Centre for
Integrative Medicine
Inspiring health and wellbeing

NCIM supports a growing movement for change in healthcare, combining conventional, lifestyle and holistic approaches to improve health and wellbeing. NCIM is a Community Interest Company (08529099)

Time: 7.30 - 8.30 pm
