

Integrative Cancer Care at NCIM

Supporting you through your cancer treatments

Our Approach

NCIM supports people living with cancer by integrating evidence-informed complementary therapies alongside conventional treatments. Our approach helps reduce treatment side effects, supports wellbeing, and empowers you to take an active role in your care.

Recommendations are tailored to your individual needs, and we aim to leave you feeling empowered to manage your health and wellbeing throughout your cancer journey.

Mistletoe Therapy

- Stimulates production of natural killer cells
- Supports the immune system
- Reduces side-effects of cancer treatments
- Improves quality of life

Medicinal Mushrooms

- Supports immune system function
- Contains beneficial bioactive compounds
- Works alongside conventional treatments
- Evidence-based therapeutic use

Nutrition & Fasting

- Personalised dietary guidance for cancer patients
- Nutritional support during chemotherapy and radiotherapy
- Supervised fasting during cancer treatment where appropriate

Anthroposophic Medicine & Homeopathy

- Treatments tailored to your unique constitution
- Safe alongside cancer treatments
- Supports management of side-effects
- Promotes the body's natural healing responses

What to expect

Initial Consultation: We take time to understand your diagnosis, treatment plan, and individual needs to create a personalised support programme.

Ongoing Support: Regular reviews ensure your integrative care evolves alongside your conventional treatment.

Self-Referral Welcome: You can contact us directly: no GP referral needed
